01   ABOUT US

We are Simplifying Health & Safety. At Vision Communications, we deliver innovative health and safety software, offering tailored audits, online training, accident & incident management, equipment maintenance records and risk assessments designed to fit your business needs. With 20+ years of expertise, our web-based systems support businesses of all sizes - from single-site operations to multi-site enterprises.

Trusted by leading small and large companies across the UK, we're dedicated to making compliance simple and effective.

02   OUR CLIENTS

We specialise in the motor and retail industries and we have a long and successful relationship with some of the largest and most prestigious companies within the UK.

03 OUR SERVICES

We offer a wide range of H&S services, including Health & Safety management, site audits, online training, as well as offering our clients bespoke systems to meet their needs.

HEALTH & SAFETY MANAGEMENT

Streamline your Health & Safety processes by planning, organisng, and managing all your compliance requirements in one intuitive system.

Features include:
- Comprehensive risk assessments and essential safety documentation
- Customisable safety audits with tailored checklists for your business
- Centralised online and in-person training records
- Equipment maintenance tracking for seamless compliance
- Efficient accident & incident logging

Stay ahead with automated reminders for key deadlines and assign tasks effortlessly based on user permissions set by your administrator. Securely upload service sheets and maintenance records, ensuring instant access for authorised personnel—all in one place.

SITE AUDITS

Ensure seamless Health & Safety compliance with bespoke audit checklists, guaranteeing consistency—no matter who conducts the audit.

Key Features:
- Tailor-made checklists designed to meet your business's specific needs
- Track performance trends and improvements between audits
- Generate audit action plans that highlight only areas of non-compliance
- Upload images directly to each question for clearer documentation

Plan ahead with automated reminders, ensuring audits are completed on time, every time.

🖥️ ONLINE TRAINING

Equip new starters with essential Health & Safety knowledge through nine interactive training modules, tailored to their specific roles.

Training modules include:
- Manual Handling
- Working at Height
- Personal Protective Equipment (PPE)
- Fire Safety
- Accident & Incident Recording
- Safety Signage
- Hazardous Substances & Labelling
- Health & Safety Law
- Display Screen Equipment (DSE)

Employees must achieve the required pass rate to complete the course—if they don't, the training automatically resets.

Upon successful completion, a training certificate is instantly added to their training record. You can also schedule automatic refresher training at set intervals to ensure ongoing compliance.

🤝 BESPOKE SYSTEMS

Beyond comprehensive Health & Safety management, our bespoke modules support a range of additional business needs, including:

- ISO 9000/14001 Quality Management Systems
- Customer Complaint Management – Ideal for retail environments
- In-House Payment Management – For customer credits and internal payment requests
- Holiday & Absence Planning – Streamlined scheduling and tracking
- Purchase Order Management – Efficient procurement control
- Brand Standard Audit Checklists – Ensuring consistency across operations

If you require a custom-built system to meet your specific needs, simply get in touch—we're here to help.

Trusted by businesses of all sizes across the UK, we simplify compliance with effective solutions—earning the confidence of industry leaders and the satisfaction of our customers.

★★★★★

"H.R. Owen Plc has been working with Vision Communications for over 16 years and is extremely satisfied and pleased with the professional service and invaluable support they provide for our group, which includes some of the most prestigious motor manufacturers in the world. We would have no hesitation in recommending them to any company or individual who wishes to use their talents in ensuring they are compliant with regards to all aspects of Health & Safety."

CATHERINE DESMOND - H.R. OWEN

★★★★★

"Having worked with Vision Communications since 2001, they have consistently delivered nothing short of a 'First Class' service. They have provided our sites with exceptional advice, planning, solutions and support. We highly recommend them to all companies that require a direct, simple and effective approach in providing a bespoke service, a wealth of knowledge and guidance, solutions and support, in order for you to gain the results desired."

SAM CHOW - HEXAGON

★★★★★

"As a group we have worked with Vision Communications since 2004, throughout this relationship it has been effortless, the team at Vision have been exceptional, always looking to improve facilities and we would have no hesitation in recommending them to any other customer, a sincere thank you on behalf of The Arbury Group."

PAUL GOODWIN - ARBURY

05 YOU'LL HAVE OUR SUPPORT

Our web-based systems come with flexible support arrangements, ensuring seamless operation and peace of mind. We help successful companies to streamline operations, ensure compliance, manage administrative tasks efficiently, and reduce their costs while boosting productivity.

What's included:

- System leasing and ongoing maintenance
- Regular programme updates
- Secure site hosting and database backups
- Onsite customer support, including programme development, system training, and expert consultancy from fully qualified professionals

AFFORDABLE & FLEXIBLE PRICING

Enjoy cost-effective solutions with no upfront purchase costs—just low monthly support fees, no matter how many users you have per site. Our pricing also includes full system support, secure database backup & automatic updates as technology evolves.

SECURE GLOBAL ACCESS

Access your system anytime, anywhere. Our secure web-based platform allows you to manage operations from the office, at home, or on the go—wherever a reliable internet connection is available.

ADVANCED TECHNICAL INFRASTRUCTURE

Our system is hosted on a secure web server, eliminating the need for local installations. With a fast broadband connection, you'll experience:

- Reliable, cloud-based performance
- Fully backed-up and managed customer databases
- Enhanced security for complete peace of mind
